1. Importance of helicobacter pylori infection and pepsinogen titer in hemodialysis and renal transplantation patients in Japan
2. Transdermal estrogen replacement therapy and vasomotor response.
3. Microbicidal efficacy of povidone-iodine in a noncontact manner applied to a continuous ambulatory peritoneal dialysis connection system.
4. Soluble fas in ESRD patients.
5. A case of proteinase 3-anti-neutrophil cytoplasmic antibody-negative Wegener's granulomatosis
6. The performance evaluation of endotoxin retentive filters in haemodialysis.
7. Effects of reduced dialysis fluid flow in hemodialysis
8. Therapeutic effects of the long-term use of PAN membranes dialyzer in maintenance dialysis patients efficacy in elderly dialysis patients with PAD.
9. A comparative study of sterility levels in continuous ambulatory peritoneal dialysis system.
10. Use of ultrasonic cleansing in managing the couplers of dialyzer systems.
11. A Clinical Experience on the Case: Membranous nephropathy complicated by renal cell carcinoma.
12. A case of monoclonal immunoglobulin G1-lambda deposition associated with membranous feature in a patient with hepatitis C viral infection
13. Parathyroid interventions for secondary hyperparathyroidism in hemodialyzed patients. Therapeutic Apheresis and Dialysis.
14. N-Terminal Pro-Brain Natriuretic Peptide as a Predictor of Heart Failure with Preserved Ejection Fraction in Hemodialysis Patients without Fluid.
15. Successful treatment of digoxin intoxication by haemoperfusion with specific columns for β 2-microglobulin-adsorption (Lixelle) in a maintenance haemodialysis patient.
16. Detection of cardiac sarcoidosis using cardiac markers and myocardial integrated backscatter.
17. Abnormal cutaneous vasomotion and reduced cutaneous blood mass remain in congestive heart failure even with normalized cardiovascular hemodynamics.
18. A Case of Sjögren's Syndrome Complicated with Interstitial Nephritis and Delayed Onset Autoimmune Hepatitis

19. A Case of Anti-Glomerular Basement Membrane Anti-body-Positive Systemic Lupus Erythematosus with Pulmonary Hemorrhage Successfully Treated at an Early Stage of the Disease
20. Correlation between Pathological Findings and the Usefulness of Clinical Guidelines for the Treatment of ANCA-Positive RPGN: A Retrospective Analysis.
21. A case of membranous nephropathy diagnosed with lupus nephritis 11 years after onset
22. Smoking is a risk factor for endogenous peritonitis in patients undergoing peritoneal dialysis.
23. Lower Limb Ulcer Associated with Peritonitis in Patients Undergoing Peritoneal Dialysis.
24. Risk Factors for Early Peritoneal Dialysis Discontinuation: Importance of Heart Failure
25. Effectiveness of a Continuous Interactive Communication System for Home Care Nursing Assistance of Peritoneal Dialysis
26. Tonsillectomy combined with steroid pulse therapy prevented the progression of chronic kidney disease in patients with IgA nephropathy
27. Clinicopathological characteristics of kidney injury in non-small cell lung cancer patients under combination therapy including pembrolizumab
28. The severity of glomerular endothelial cell injury is associated with infiltrating macrophage heterogeneity in endocapillary proliferative glomerulonephritis
29. Long-term Benefits of Treatment with Tolvaptan in Patients with Autosomal Dominant Polycystic Kidney Disease
30. Plasma erythropoietin level and heart failure in patients undergoing peritoneal dialysis: a cross-sectional study
31. 2018 annual dialysis data report of the JSDT Renal Data Registry: patients with hepatitis
32. A case of acute kidney injury associated with Leriche syndrome
33. Gross pneumomediastinum-a rare complication of minitracheostomy.
34. The severity of glomerular endothelial cell injury is associated with infiltrating macrophage heterogeneity in endocapillary proliferative glomerulonephritis.
35. A case of proliferative glomerulonephritis with monoclonal IgG3 κ deposits accompanied by glomerular capillary microaneurysms.
36. Effects of Renal Function on Urinary Excretion and Serum Concentration of Uric Acid in Patients Treated with Febuxostat for Chronic Kidney Disease.

37. Clinicopathological characteristics of kidney injury in non-small cell lung cancer patients under combination therapy including pembrolizumab
38. Diverse Alterations of Glomerular Capillary Networks in Focal Segmental Glomerular Sclerosis.
39. Long-Term Benefits of Treatment with Tolvaptan in Patients with Autosomal Dominant Polycystic Kidney Disease.
40. Anti-neutrophil Cytoplasmic Antibody-associated Vasculitis Superimposed on Post-streptococcal Acute Glomerulonephritis.
41. One of Differential Diagnosis of Liver Injury in Patients Undergoing Peritoneal Dialysis.
42. A possible role of classical complement pathway activation in the pathogenesis of immunoglobulin G nephropathy: a case report.
43. Concomitant Anti-GBM Glomerulonephritis and Acute Interstitial Nephritis Following Programmed Death Receptor-1 Blockade With Nivolumab.
44. A Case of Hepatitis E Virus Infection: One of Differential Diagnosis of Liver Injury in Patients Undergoing Peritoneal Dialysis.
45. Imaging Findings in a Case of Bacteremia Caused by Non-Typhoidal Salmonella Associated with a Congenital Venous Malformation.
46. Effects of Renal Function on Urinary Excretion and Serum Concentration of Uric Acid in Patients Treated with Febuxostat for Chronic Kidney Disease.
47. The efficacy and safety of ivabradine hydrochloride in hemodialysis patients with chronic heart failure.
48. Changes in Treatment Conditions for Patients Receiving Hemodialysis at Nippon Medical School Hospital During the COVID-19 Pandemic.
49. Hepatic function markers as prognostic factors in patients with acute kidney injury undergoing continuous renal replacement therapy.
50. Low Serum Albumin Levels are Associated with Short-term Recurrence of Arteriovenous Fistula failure
51. Effect of Dotinurad on Serum Uric Acid Concentration in Chronic Kidney Disease Patients Treated with Febuxostat.
52. Impact of Home-Based Rehabilitation on Renal Prognosis in Patients with Chronic Kidney Disease.
53. Factors Predicting Renal Outcomes in Hypertensive Emergencies With Severe Renal Impairment: A Single-Center Retrospective Study.
54. Prognostic Factors for Mortality in Maintenance Hemodialysis Patients Infected with SARS-CoV-2.
